

Theft of valuables from cars!

Remember that your car is not a window shopping. Be reasonable and carefull when you complete the staff you want to take with you.

The best place to keep your belongings is the car trunk.

If you use gps, car-radio which are not fixed permanently to your vehicle control panel, after you end your journey remove them from the sight of a possible thief. Take them with you or put them in the car trunk, if you are only having a brake during your travel.

Maybe it is obvious, but use all the possible car safety systems – close the windows, sunroofs, doors, block and turn on the alarm.

Park on the attended car parks, usually you will have to paid for it. Make sure that the fee for the parking place embraces the protection of your car.

In case there are not attended car parks in the area, park your car in a well seen place, from where you can leave at once without any difficulties.
